Anti-Human IL10 Antibody [K24004_1C5]

Overview

Product name: Anti-Human IL10 Antibody [K24004_1C5]
Antibody specificity: Interleukin-10 (IL-10)
Species reactivity: Human
Clonality: Monoclonal
Clone number: K24004_1C5
Host / isotype: Mouse / IgG2a
Immunogen: Recombinant human IL-10
Cross reactivity: Not tested
Kinetic characterization by BLI (biolayer interferometry): Not tested
Purification: Protein A purified from cell culture supernatants
Form: Liquid
Concentration: 1 mg/mL in phosphate buffered saline containing 0.09% preservative
Conjugation: Unconjugated

Shipping, storage and shelf life

* 3 months when stored at 2 to 8 °C
* 1 year when aliquoted and stored at -20 °C
* 3 years when aliquoted and stored at -80 °C

Note:

* The applications above have already been verified. The antibody may be suitable for additional applications.
* Optimal antibody concentrations for each application should be determined by the user.

Additional information

Target antigen

Protein name: Interleukin 10
Gene name: IL10
UniProt Accession: P22301
Organism: Homo sapiens (Human)

Product data

Western blotting

25 ng of recombinant human IL-10 was run on 6-18% SDS-PAGE under reducing conditions and blotted onto nitrocellulose membrane. K24004_1C5 at 1 µg/mL was used as the primary antibody and peroxidase conjugated goat anti-mouse IgG was used as the secondary antibody. IL-10 band was visualized using ECL Western Blotting Substrate. Result: K24004_1C5 can detect recombinant human IL-10 by Western blotting.
